

INSTALLATION INSTRUCTIONS FOR TRIBAY SERIES LENS ASSEMBLY

CH-ENC-19

CH-ENC-23

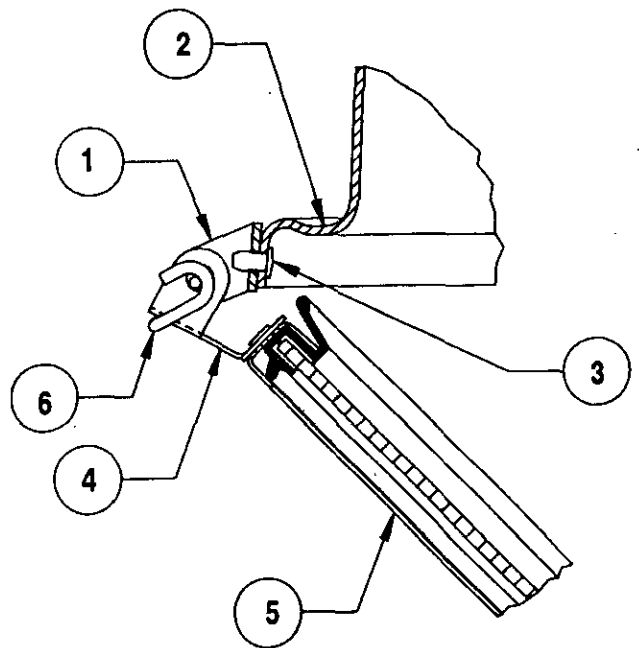

WARNING

Handle and secure so lens assembly cannot fall.

GENERAL INSTRUCTIONS

1. Place hinge bracket (1) with loops facing downward away from reflector against the outside of the reflector flange (2) as shown.
2. Align holes and insert pop-rivets (3) outward through holes in the reflector flange and then through the holes in the hinge bracket.
3. Crimp pop-rivets with appropriate tool to secure bracket to reflector.
4. Align bracket (4) extending from lens ring (5) over the two loops on the installed hinge bracket.
5. Insert hinge pin (6) through the aligned holes in the hinge assembly brackets. Close hinge pin to secure it in place.
6. Rotate lens assembly into the bottom of the reflector.
7. Snap spring latches over the reflector flange to secure lens assembly on reflector.
